Bridge Course in Organic Chemistry

Chemistry of Hydrocarbon

For

SYBSc Chemistry Students

Academic Year 2021-22

Course Coordinator

B. S. Narsale

Assistant Professor, Department of Chemistry

Preamble:-

This course's primary goal is to close the knowledge gap between the hydrocarbons and reactions that students studied in FYBSc (Sem-I) and the aromatic hydrocarbons that they would study in SYBSc Chemistry class (Sem-III). Understanding the preparation of molecules, types of bonds, structural effect, and hybridization of aliphatic and aromatic hydrocarbons is essential. Understanding the many terminologies used in the class is crucial. Organic chemistry is not included in FYBSc Sem-II-curriculum and during the COVID 19 epidemic, many students would not have understood the subject because of issues with online learning. As a result, the bridge course is created in a way that it can be included in the FYBSc and SYBSc Organic Chemistry curricula. The Bridge course's objectives include giving students enough time to adjust to the challenging core of the degree course. It serves as a buffer for the students.

Objectives:-

- To give students a solid foundation in the fundamentals of organic chemistry, so they will not encounter any problems once SYBSc Chemistry lessons start.
- To bridge the gap between aliphatic hydrocarbon reactions studied at Sem I and aromatic hydrocarbon they would be studying in Sem V.
- This course offers a better transition period for students to get ready before the start of the Third Semester courses and serves as a buffer for those who are preparing for tests like the JAM.
- Students that participate in interactive and active learning will be prepared for their UG course with knowledge and confidence.
- It is a course conduct by framing its own syllabus from the session 2021-22 in the first week of beginning of the class.
- It is an independent Programme of Department of Chemistry for admitted SYBSc Chemistry students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of S.Y.B.Sc. classes.
- On the last day of bridge course each lecturer made aware the students about subject programme outcomes to prepare them for new challenges.

Duration- 6 days in first week of Sem-III

Time- Monday to Saturday

Syllabus-**1. Introduction to Hydrocarbon [2L]**

Functional group, definition, classification, Aliphatic hydrocarbon, Isomer and isomerism, Alkane, alkene and alkyne: Nomenclature, preparation and reactions.

2. Structural effects in Organic compounds [4L]

Introduction, bond length, bond angle, dipole moment, hybridization, Inductive effect, Resonance effect, steric effect, hyperconjugation, tautomerism.

Date- 8 September 2021

NOTICE

This is to inform all the SYBSC Chemistry students that, to prepare the students before starting the SYBSc Chemistry Sem-III, our college has been conducted 6 day Bridge Course in the 1st week of Sem-III from **13.09.2021 to 18.09.2021** as per the Time table given below. Evaluation :

The success of teaching-learning process is measurable in terms of the achieved outcomes. The learning outcomes are evaluated in the form of results of continuous assessment as well as university evaluation.

For continuous assessment college has framed a policy document including guiding principles with the help of university guidelines. A CIE calendar is prepared by examination section and published on website and notice boards. This helps to ensure the participation of all students in stipulated time. The results are analysed and outcomes are measured in terms of PO-CO attainments. During pandemic the whole teaching-learning process and evaluations were carried out merely online as per the directives of authorities. The ICT facilities available at the HEI proved to be crucial in teaching-learning activities.

Faculties are involved in the CIE as well as university evaluation in terms of paper setters, examiners, moderators, coordinators, etc.
