Professor and Head, Department of Chemistry

Course Structure

Preamble:-

The main objective of this course is to bridge the gap between Coordination Chemistry studied at SYBSc (Sem-II and IV) and Coordination Chemistry they would be studying in TYBSc Chemistry class (Sem-V). In understanding coordination chemistry it is necessary to understand the different theories from the discovery, history and development of the coordination chemistry. It is of vital importance to understand various terminologies in it in the class. During pandemic of COVID 19, many students may not have understood the concept due to difficulties during online education. Therefore the bridge course is designed in such a way that it becomes the part of curriculum of SYBSc and TYBSc Inorganic Chemistry. The Bridge course is aimed to act as a buffer for the learners with some objectives to provide adequate time for the transition to hard core of degree course.

Objectives:-

- To provide adequate foundation in the basic Inorganic Chemistry subject, so that students do not face any difficulty when the TYBSc Chemistry classes begin.
- To bridge the gap between Coordination Chemistry studied at Sem III and Coordination Chemistry they would be studying in Sem V.
- This course provides a better transition phase to prepare themselves before the onset of course for fifth semester and act as a buffer for the students who are preparing for examinations like JAM and NET.
- Interactive & active learning students will be equipped with knowledge and the confidence before their PG course.
- It is a course conduct by framing its own syllabus from the session 2021-22 in the first week of beginning of the class.
- It is an independent Programme of Department of Chemistry for admitted TYBSc Chemistry students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of T.Y.B.Sc. first year classes.
- On the last day of bridge course each lecturer made aware the students about subject programme outcomes to prepare them for new challenges.

Duration- 6 days in first week of Sem-V

Time- Monday to Saturday

Course Structure

Preamble:-

A bridge course for newly admitted students in T. Y. B. Sc. Chemistry is conducted every year before the commencement of the first semester classes. The main objective of the course is to bridge the gap between subjects studied at F. Y. B. Sc. and S. Y. B. Sc. Level. The syllabus for the course is framed on most important fundamental parts of organic chemistry useful for all PG, UG and researchers. The duration of this course is 8 days with 8 hrs. The students are trained in fundamental parts of organic chemistry which includes structure formation concepts, reactivity and structural effects that affects the reactivity during chemical reactions. The sound grasp of the fundamentals of the subjects lays the strong foundation for the entire year programme and future study. Our experience has shown that students who underwent the bridge course have fared extremely well in University, as well as entrance Examinations. Bridge course as an eye opener and boosts confidence significantly among the students.

Objectives:-

- To provide adequate foundation in the basic applied organic chemistry subject, so that students do not face any difficulty when the university classes begin and even in university examination also.
- This course provides a better transition phase to prepare themselves before the onset of course for first semester.
- To bridge the gap between organic chemistry studied at F. Y. and F. Y. B. Sc classes.
- Bridge course act as a buffer for new entrance.
- Interactive & active learning students will be equipped with knowledge and the confidence before first year course.
- To aware the students on the last day of bridge course about organic chemistry syllabus outcomes at university pattern to prepare them for new challenges.

Course Structure

Preamble:-

This course's primary goal is to close the knowledge gap between the hydrocarbons and reactions that students studied in FYBSc (Sem-I) and the aromatic hydrocarbons that they would study in SYBSc Chemistry class (Sem-III). Understanding the preparation of molecules, types of bonds, structural effect, and hybridization of aliphatic and aromatic hydrocarbons is essential. Understanding the many terminologies used in the class is crucial. Organic chemistry is not included in FYBSc Sem-II-curriculum and during the COVID 19 epidemic, many students would not have understood the subject because of issues with online learning. As a result, the bridge course is created in a way that it can be included in the FYBSc and SYBSc Organic Chemistry curricula. The Bridge course's objectives include giving students enough time to adjust to the challenging core of the degree course. It serves as a buffer for the students.

Objectives:-

- To give students a solid foundation in the fundamentals of organic chemistry, so they will not encounter any problems once SYBSc Chemistry lessons start.
- To bridge the gap between aliphatic hydrocarbon reactions studied at Sem I and aromatic hydrocarbon they would be studying in Sem V.
- This course offers a better transition period for students to get ready before the start of the Third Semester courses and serves as a buffer for those who are preparing for tests like the JAM.
- Students that participate in interactive and active learning will be prepared for their UG course with knowledge and confidence.
- It is a course conduct by framing its own syllabus from the session 2021-22 in the first week of beginning of the class.
- It is an independent Programme of Department of Chemistry for admitted SYBSc Chemistry students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of S.Y.B.Sc. classes.
- On the last day of bridge course each lecturer made aware the students about subject programme outcomes to prepare them for new challenges.

Duration- 6 days in first week of Sem-III

Time- Monday to Saturday

Syllabus-

1. Introduction to Hydrocarbon [2L]

Functional group, definition, classification, Aliphatic hydrocarbon, Isomer and isomerism, Alkane, alkene and alkyne: Nomenclature, preparation and reactions.

2. Structural effects in Organic compounds [4L]

Introduction, bond length, bond angle, dipole moment, hybridization, Inductive effect, Resonance effect, steric effect, hyperconjugation, tautomerism.

Date- 8 September 2021

Course structure- Bridge Course in Physical Chemistry- Introduction to Chemical Mathematics

Preamble:-

The main objective of this course is to bridge the gap between Physical Chemistry concepts studied at XI, XII Science and Physical Chemistry they would be studying in F.Y.B.Sc Chemistry class (Sem-I). To understand the derivations, mathematical concepts and numerical in physical Chemistry of F.Y.B.Sc Class it is necessary to understand the different Basic concepts of mathematics. During pandemic of COVID 19, many students may not have understood the concepts due to difficulties during online education. Therefore the bridge course is designed in such a way that it becomes the part of curriculum of XI, XII and F.Y.B.Sc Physical Chemistry. The Bridge course is aimed to act as a buffer for the learners with some objectives to provide adequate time for the transition to hard core of degree course.

Objectives:-

- To provide adequate foundation in the basic Physical Chemistry subject, so that students do not face any difficulty when the F.Y.B.Sc Chemistry classes begin.
- To bridge the gap of knowledge between basic Mathematics and Physical Chemistry of F.Y.B.Sc SEM - I
- This course provides a better transition phase to prepare them before the onset of course for first semester.
- To build among students knowledge and confidence during their UG course study by conducting interactive sessions.
- To remove inferiority complex of students about physical Chemistry.
- To run an independent Programme under Department of Chemistry for newly admitted F.Y.B.Sc Chemistry students. The reason is to construct such bridge courses as per our observation that students have not opted mathematics at XI, XII and F.Y.B.Sc are facing difficulties in understanding mathematical terms such as derivatives, Integration, Logarithm and graphs.
- To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of F.Y.B.Sc. Class.
- On the last day of bridge course each lecturer made aware the students about course and programme specific outcomes to prepare them for new challenges.

Duration - 6 days in first week of SEM - I

Time - Monday to Saturday

Syllabus -

- 1 **Logarithm:** Rules of Logarithm, Characteristics and Mantissa, Change of sign and base, problem based on p^H and p^{OH} [2L]
- 2 **Graphical representation of equations:** Rules of drawing graphs, equation of straight line, slope and intercept, Problems. [2L]
- 3 **Derivative:** Rule of differentiation, Partial differentiation, Algebraic, logarithmic, exponential function. [2L]
- 4 **Integration:** Rules of Integration, Algebraic, exponential functions and problems. [2L]

Academic Year 2021-22

Course Structure -Bridge Course in Industrial Chemistry Introduction to Pharmaceutical Chemistry

Preamble:-

The mission of the Pharmaceutical Chemistry course is to introduce students to the structure, properties, and analysis of pharmaceutical agents as well as some fundamental techniques used for near patient testing and pharmacokinetic analysis. Topics include basic concepts in pharmaceutical analysis. 1) Basic terms involved in pharmaceutical Chemistry 2) The drug discovery and development process 3) Review of organic functional groups found in drug molecules 4) Drug-target interactions 5) Physicochemical properties related to drug action such as acid-base properties, equilibrium, and stereochemistry. Therefore the bridge course is designed in such a way that it becomes the part of curriculum of TYBSc Industrial Chemistry.

Course Objectives:-

Students completing the Introduction to Pharmaceutical Chemistry course will be expected to demonstrate the following abilities based outcomes (ABOs).

- 1 It is a course conduct by framing its own syllabus from the session 2021-22 in the first week of beginning of the class.
- 2 It is an independent Programme of Department of Chemistry for admitted TYBSc Chemistry students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- 3 To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of T.Y.B.Sc. first year classes.
- 4 On the last day of bridge course each student made aware the students about subject programme outcomes to prepare them for new challenges.
- 5 To understand basic terms in Pharmaceutical Chemistry like Drugs, Agonist, Antagonist drugs, drug receptor interactions.
- 6 Develop and demonstrate depth and breadth of knowledge in pharmaceutical and clinical sciences.
- 7 Integrate knowledge to explain how specific drugs or drug classes mechanisms.

Preamble:-

Curriculum plays a crucial role in enabling quality learning for our young learners in our society i.e. students. An effective curriculum not only enables a student's learning process & knowledge acquired but also supports students to overcome their inhibitions and aids in their holistic development. For that reason the main motto of this course is to bridge the gap between Physics studied at S.Y.BSc. (Sem-III and IV) and those students who are taking Physics as a specialisation T.Y.B.Sc. In understanding Fundamental and applied physics it is necessary to understand the different theories, concepts related to units, dimensions mechanics, electromagnetic theory ,band theory of solids. During pandemic of COVID 19, many students may not have understood the concept due to difficulties during online education in proper manner and stipulated time. Therefore the bridge course is framed in such a way that to resolve that difficulties and lacuna in the S.Y.B.Sc. Physics) due to Covid-19 pandemic. The Bridge course is aimed to act as a buffer for the learners with some objectives to provide adequate time for the transition to hard core of degree course.

Objectives:-

- ✚ To give the knowledge and adequate foundation in Physics subject, so that students do not face any difficulty as well as to create interest among them in the subject when the T.Y.BSc. Physics classes begin.
- ✚ To bridge the gap between Physics studied at Sem (III & IV) and Courses they would be studying in T.Y.B.Sc.(Physics).
- ✚ This course provides a better transition phase to prepare themselves before the onset of course for fifth semester and act as a buffer for the students who are preparing for examinations like JAM and NET,etc.
- ✚ Interactive & active learning students will be equipped with knowledge and the confidence before their PG course.
- ✚ It is an independent Programme of Department of Physics for admitted TYBSc Physics students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- ✚ To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of T.Y.B.Sc. first year classes.
- ✚ On the last day of bridge course each lecturer made aware the students about subject programme outcomes to prepare them for new challenges.

Class: F.Y.B.Sc.

Academic Year: 2021-22

Duration: One Week

Course Coordinator: R.B.Kharade

Preamble:

During Pandemic situation students were unable to attain the classes in offline mode, and in online mode it becomes very difficult to students and teachers also to teach each and every point in details. Most of the students are unable to use calculator for simple calculations also. Students have forgotten basic formulae and derivations which they have studied at high school and 12th, they are highly useful for higher studies in all subjects. So we decided strengthen the students via bridge course to remember them basic formulae and calculations with the help of scientific calculator.

- 2) To understand the importance of calculation in Physics
- 3) Students become aware of different calculation tricks so they can calculate within a very short time
- 4) To become aware of different functions of Scientific Calculator and use of it.
- 5) To understand the Graphical representation of any curve
- 6) To co-relate the formula with its graphical representation.
- 7) Students become able to solve the problems in Physics.
- 8) To remove the complexity of the subject and create interest in that subject

Course Structure - Bridge Course in Botany

Preamble:-

The efforts are taken to bridge the gap between techniques studied in previous classes and would be studied in M.Sc. II class (Sem-IV). It is necessary to understand the different techniques History, Principle, Working Advantages and Disadvantages which are used in Botany. It is of vital importance to understand various techniques for practical purpose of the class. During pandemic of COVID 19, many students may not have understood the Concept due to difficulties during online education. Therefore the bridge course is designed in such a way that it becomes the part of curriculum of T.Y.B.Sc and M.Sc. I syllabus oriented techniques. The Bridge course is aimed to act as a buffer for the learners with some objectives to provide adequate time for the transition to hard core of degree course.

Objectives:-

- To bridge the gap between techniques studied in previous classes and would be studied in M.Sc. II class.
- To remembering previous Botanical techniques are useful for their higher education.
- It is independent programme for the students which are facing various problems in theory and practical.
- The reason to construct the bridge course is as per our observation that the students have lack of practical knowledge due to pandemic situation and online teaching.
- To understanding basic principles, working of instruments which are used for practical purpose.
- To better understanding of the subject and making more interesting to it.
- To aware advantages of the techniques which are used in laboratories.
- To understand the feature and scope of different techniques which are used in different field such as Medicine, Molecular Biology, etc.

Brief Summary of activity/ event:

A one-day industry-Academia workshop on "Research Career in Chemistry: Opportunities Abroad" is jointly organized by IQAC, Department of Chemistry and Alumni Association of New Arts, Commerce and Science College, Parner on Thursday 30.12.2021. The workshop is inaugurated the auspicious hand of Prin. Dr. R. K. Aber. 184 students and Teacher participated in the workshop.

Dr. Santosh Pagire was formally welcomed and introduced as the guest by Mr. B. S. Narsale, who also explained the rationale for the workshop's creation. The need for resources in the pharmaceutical business has expanded due to COVID-19, however trained and experienced individuals are preferable.

Salutations from Prin. Dr. R. K. Aber to all of the workshop's resource people. Dr. Aber made the observation that encouraging student involvement in curriculum-enriching activities should be a top concern. Alumni from the chemistry department are constantly making contributions to society, employment opportunities, and educational knowledge. The comments on industry and academic institution collaboration in research and placement have been made, sir.

Dr. Santosh Pagire, a Marie Curie Fellow from the University of Bristol in the UK, explained how the pharmaceutical sector operates during the technical session. It contains departments including Research & Development, ADL, Quality, and Production, each department need human resources. employee traits, job status, and personal development. The requirement for a research project in the senior year was also mentioned by the sir. Students asked questions about academic and industry interviews during the discussion session, and their questions were answered. The workshop's closing session featured spoken comments from the students. The institute's thanks were given by Prof. S. S. Chaudhari.

Outcome of Activity/ event:

Aher, Principal, extends a gracious hand in launching the workshop. The session was attended by 63 postgraduate students, 6 research students, and 9 teachers.

In his introduction, Professor Dr. D. R. Thube discussed the rationale behind organising a workshop. Sir talked about the necessity of setting up a workshop on research technique. the requirement for a literature review in the creation of objectives. An effective researcher must have strong communication skills, be on time, have confidence, and be knowledgeable about the topic matter. Welcome to the workshop, main guest and all resource people, prin. Dr. R. K. Aher.

Dr. A. G. Gadhave weighs in on the subject how does research start? The goal of the research must be an environmental, social, or biomedical necessity, among other things. In addition, he offered advice on what should be avoided while choosing a topic. He discussed the literature review and the usage of research articles that were published in reputable international publications. Use the Sci-finder app to acquire the most recent details on the research topic. The different reputable publishers used for referencing include the Royal Society of Chemistry, Elsevier, Taylor and Francis, Chemical Science, Nature, and Pub-Chem. Additionally, he discusses how to introduce yourself, your personality, your body language, and your attire when presenting a topic. The topic knowledge and its fundamental inquiries are covered.

Brief Summary of activity/ event:

The Ahmednagar District Maratha Vidya Prasarak Samaj, New Arts, Commerce, and Science College, Parner College, under the Marathi department, writing and reading workshop, concluded on May 12th, 2022. Senior journalist Mahaveer Jondhale and famous ghazal writer Sanjay Pathade guided the students on this occasion.

The principal of the college, Dr. Ranganath Aher, expressing his concern, said that in today's age of information technology, the mindset of reading among the youth is decreasing. Therefore, the intellectual development of the students is expected. It doesn't happen. Conducting such workshops in today's era is definitely appreciated. Students participating in this workshop are sure to know the importance of reading and are sure to do better reading and quality writing in the future. Senior journalist Mahaveer Jondhale, who was invited as an expert guide on this occasion, said that this youth class is the future of tomorrow. So, you should look at history with an eye. This history is our cultural heritage. If we do not know our culture and history, our thinking will not be formed. Due to social media, any message or event can be spread far and wide at a very fast speed. We keep pushing these messages without knowing the truth or reality behind them. So often the wrong things are circulated. We have to bear its far-reaching consequences. Therefore, it is necessary to try everything at the level of your conscience without blindly believing anything. Today's younger generation should study the subjects of literature, history, economics, and political science in depth and carefully. We must learn to verbalise our experiences. For that, you should read it first. Reading makes a person rich. By reading, we get used to thinking about pros and cons. We receive a thought reading. He stated that Another expert guide in this workshop, famous ghazal writer Sanjay Pathade, told the students about the ghazal form of composition and presented very poignant ghazals. Earlier, he told the history of Parner taluka and the information about Parner Bhoomiputras recorded by history. At the same time, he told the students about the importance of reading, saying that this personality was formed due to reading. Great writing is not possible

without reading. Writing is an expression. Writing is putting your life into words. So it is necessary to write. How to write a poem? He answered the questions of these students through poetry. Finally, the lecture concluded by presenting a ghazal expressing social consciousness. On this occasion, the principal of the college, Dr. Ranganath Aher, gave an introduction and a welcome. Dr. Dilip Thube, Student Development Officer Dr. Dattatray Ghungarde, Head of Arts Dr. Deepak Sontakke, Dr. Vijayakumar Raut, Prof. Hanumant Gaikwad, Prof. Ashok More, Prof. Virendra Dhanshetty, Prof. Sandeep Thombre, Prof. Jyotsna Mhaske, Prof. Pratiksha Tanpure, Prof. Shubda Arde and other professors were present.

As the coordinator of the program, Dr. If Maya Lahare saw the work, thank you Marathi Department Head Dr. According to Hareesh Shelke, the coordinator of the programme is Dr. Nandkumar Udar.

Outcome of Activity/ event:

1. Improved language skills and abilities

She said that at this time, she said that it is necessary to take care of one's physical and mental health in order to improve one's constitution. If we awaken ourselves, we can also awaken the women around us. For this, it is very important to pay attention to your diet first. भूगोल विषय प्रत्येकांच्या जीवनाशी निगडीत

पारनेर । नगर सह्याद्री

भूगोल व इतर विषयांचा असलेला सहसंबंध लक्षात घेता भूगोलात इतर विषयाची जननी म्हणून खऱ्या अर्थाने संबोधले जाते. कारण प्रत्येक क्षेत्रामध्ये भूगोलाच्या विद्यार्थ्यांना संधी असल्याचे दिसून येते. भूगोल विषयाचा जीवनाशी व सर्व क्षेत्राशी सहसंबंध असल्याचे मत विकास म्हस्के यांनी व्यक्त केले आहे.

न्यू आर्ट्स, कॉमर्स अँड सायन्स कॉलेज पारनेर या महाविद्यालयात IQAC व भूगोल विभागाच्यावतीने Application of geographical knowledge in NGO sector या विषयावर एक दिवसीय वेबिनार आयोजित केले. त्यावेळी ते बोलत होते. ते म्हणाले, प्रत्येक क्षेत्रामध्ये भूगोलाच्या विद्यार्थ्यांना संधी असल्याचे दिसून येते. त्यामध्ये प्रामुख्याने स्वयंसेवी संस्था असो किंवा इतर कोणतेही क्षेत्र असो त्या क्षेत्रामध्ये

प्रामुख्याने भूगोलाचा सहसंबंध असतो. त्यातूनच आपल्याला मिळालेले ज्ञान हे उपयोगी पडत असते. आपणासा रोजगाराच्या संधी उपलब्ध असतात. प्रामुख्याने पूरग्रस्त प्रदेश, दुष्काळी प्रदेश, इतर हवामानाशी निगडीत भाग असो किंवा भूपृष्ठावर येणाऱ्या आपत्ती या सर्व क्षेत्रांशी भूगोलाचा सहसंबंध असल्याचे दिसून येतो. कोणत्याही आपत्ती मध्ये व्यवस्थापन करताना भूगोल विषय मदत करतो. दिवसेंदिवस भूगोलामध्ये आधुनिक तंत्रज्ञानाचा समावेश होत आहे. त्यामुळे या विषयात अनेक क्षेत्रात संधी असल्याचे त्यांनी सांगितले.

प्राचार्य डॉ. रंगनाथ आहिर

म्हणाले, भूगोल अतिशय विद्याल विषय असून त्याचा सर्व क्षेत्रांशी सहसंबंध आहे. काळानुरूप या विषयातील नवीन बाबी शिकून घेतल्या पाहिजे. भूगोल विषयातील तंत्रज्ञान सर्वांनाच मार्गदर्शन ठरत आहे. या गोष्टीचा सर्व विद्यार्थ्यांनी फायदा करून घेण्यासाठी नवीन गोष्टी आत्मसात करून वेगवेगळ्या क्षेत्रामध्ये संधी शोधण्याचा प्रयत्न केला पाहिजे, असेही त्यांनी स्पष्ट केले.

कार्यक्रमाचे प्रास्ताविक विभाग प्रमुख डॉ. रघुनाथ नजन यांनी केले. पाहण्यांचा परिचय डॉ. दत्तात्रय पुंताई यांनी करून दिला. सदर कार्यक्रमाचे समन्वयक म्हणून प्रा. जे. डी. म्हस्के यांनी पाहिले. तसेच या कार्यक्रमासाठी महाविद्यालयाचे उपप्राचार्य डॉ. दिलीप दुबे व प्रा. अचोक ठोकळ व विभागातील सर्व विद्यार्थी या वेबिनार मध्ये सहभागी होते. या वेबिनारचे सूत्रसंचालन प्रा. संजय आहिर यांनी केले तर आभार प्रा. किरण ससाणे यांनी मानले.

Brief Summary of activity/ event:

Under this initiative, an interview with IPS Tejashwi Satpute, Superintendent of Police, Solapur Rural, was conducted online on December 7, 2020, at 9:00 AM. On this occasion, she said, today's students need culture along with education. She further said that encouragement from parents was received at every stage. All of life's difficulties became less difficult as a result of the parents' sankars. My parents were definitely worried about my changing decisions, but they stood by me firmly in every decision. In our house, there was never a distinction between boys and girls, so I was basically taught equality. So my parents always taught me that girls are not inferior to boys in any respect. Therefore, I did not fear the difficulties that came my way. So, I was able to achieve my goal successfully. 52 students attended this activity.

Outcome of Activity/ event:

1. Students get to learn about different fields.
2. It helped them determine the direction of their lives.
3. Students begin to set their goals and strive to make them happen.

Activity Report

Total of Activity	Ideal-Icon –Special Interview
Date/ Duration	18 January 2021
Name of the Guest/Speaker with Designation	Krusha Kanya Shradha Dhawan - Journey from Student to Successful Dairy Business Entrepreneurs
Number of Participants Enrolled	27
Collaborating Agency	college
Venue	Online

Brief Summary of activity/ event:

The interview of Shradha Dhawan was conducted online on January 18, 2021, at 10:00 am. Having come from a rural area like Nighoj in Parner taluka, she has overcome adversity and created a distinct identity through education and her dairy business. She said, "I was a girl child in my family and had no restrictions since childhood. On the contrary, why should I not do the work that my father used to do? I have to do those things. My parents used to insist on this.

So, in no way did I feel that this work was not mine. I even started doing all the work, from feeding the animals to milking them and adding them to the dairy. I had no hesitation in that. because my parents supported me from home. How should my father test the animal when he buys it? This is also taught. So often now, I am the only one who selects and buys these animals.

Then, when I presented the idea of a two-story cowshed to the family, they immediately gave me a nod. Later, as large quantities of milk are produced, I take the milk to the dairy in a pick-up truck. In all my journeys, the similarity of my home was very important. This is why today I can be identified as a farmer's daughter in Parner taluk. 27 students participated in this activity.

Outcome of Activity/ event:

1. The college is in a rural area. Therefore, the students gained knowledge about agriculture and complementary business through this interview
2. Inspired by this interview, the students started trying to make their dairy business bigger.

Brief Summary of activity/ event:

Miss. Shreya Ranganath Aher is awarded a scholarship by Next Genius Foundation, Mumbai to pursue her higher studies abroad. The total amount of this scholarship is Rs.1.58 Crores. Being the only one in India to get 100% scholarship and to inspire other students, online interview was conducted on 9th November 2020 at 12.00 PM. Speaking on the occasion, she said, we should always find different parts from the education we get. Everyone should dream of doing something different while studying. Along with education, we should also be involved in other activities. Working in various social organizations during summer and Diwali vacations helped me to become aware of various issues in the society. We should not be held back because we are girls. On the other hand, girls do not have the willingness to work hard. If we convert this power into energy, no one can stop us from progressing. We become self-reliant, we gain strength to face any crisis. She gave this message to the students in her interview. 134 students attended this activity.

Brief Summary of activity/ event:

On Saturday, October 3, 2020, the IQAC, Department of Chemistry, and Alumni Association of New Arts, Commerce, and Science College, Parner will host a one-day webinar titled "Research- Another Call for Young Minds." The webinar is conducted via the Zoom technology, and Dr. M. G. Chaskar, Dean, Board of Science and Technology, Savitribai Phule Pune University, Pune, gives it a ceremonial virtual start. Prof. Dr. D. R. Thube gave an introduction to the webinar's goals. According to Sir, research in any topic is an integral element of studying any subject. The results of a study are dispersed across the area for the benefit of the entire population. Welcome to the webinar, resource people and main guest, Prin. Dr. R. K. Aher. During the pandemic, Dr. Aher proposed the student enrichment activity and the community activity. Also discussed was the function of a department in fostering knowledge. Dr. M. G. Chaskar emphasised the importance of basic science research in his overall message, as well as the need to properly guide aspiring scientists. Opportunities in Chemistry and Pharmacological Aspects of Chemical Research, presented by Dr. Hanuman Kalmode, Post-Doctoral Fellow, Department of Molecular Physiology and Biological Physics, University of Virginia, USA, is followed by a lecture on "Research Methodology for Beginners," presented by Dr. Vikas Padalkar, Sr. General Manager, NOCIL Ltd., Mumbai. Dr. Kalmode and colleagues discuss COVID 19 and pharmacological dimensions. He talked about drug development, stages of clinical trials, drug uses, and laboratory workup. He talked about the research scholarships available in India and overseas, including SERB, CSIR, DST-CSIR, and Vigyan Prasar for the promotion of Indian science. Research is a passion, not a job, according to Dr. Padalkar, who focuses on the early stages of an investigation. Before beginning a study project, you should be aware and thoughtful. The initial stage in conducting research is to decide on a research facility, organisation, and mentor. You should also choose the subject or issue you will be working on. The literature review is carried out in a variety of ways when you search for an issue, including through research papers, journals, SCOPUS, reference books, etc. with findings like search, refine, analysis, and arrangement. The primary goal following a problem search is to establish the problem's objective as well as its glassware, chemical, and analytical equipment needs. He said, "You have."

Outcome of Activity/ event:

1. The discussion with the resource person and participants resolves the ambiguity of researchers.
2. Students got idea about primary stages of research.
3. Students aware of fellowships in India and abroad for research.

Brief Summary of activity/ event:

New Arts, Commerce, and Science College, Parner College, on behalf of the Marathi department. On June 19, 2021, the father of the library movement in Kerala, P. N. Panicker's death anniversary, is celebrated as National Reading Day. Accordingly, the head of the Marathi department of Shivaji University, Kolhapur, Dr. Rabindra Thakur, was organised online on Literary Culture and Reading Practice.

The reading day programme was organised in the college online through Google Meet with the goal of sparking students' interest in reading, expanding their reading experience, and developing their overall personality. The purpose and objective behind the organisation of this Reading Day program, Dr. Marathi Department Head, Hareesh Shelke, explained in the introduction. While giving a lecture on 'Literary Culture and Reading Practice', the reading should not only be limited to Marathi literature, but literature of other languages should also be read. Language differences should be kept aside and we should look at literature. The world of experience is enriched by reading literature. Reading brings clarity of thought. One should read more and more literature that stands the test of time. By reading literature, one's life is known and one's personality is enriched. Today is the age of technology. Although the reading culture has been hindered to some extent due to the new technology, this modern technology should be used constructively to increase the reading culture. What I am today in life is only because of reading. We should celebrate every day as a reading day. Without reading, there is no substitute for the life of man, understanding and students. It is only because of reading that efficient citizens have become or are in society today. Literature is about society. Also, there is a close relationship between literature and society. In such words, Dr. Ravindra Thakur explained the importance of reading every day. The programme was chaired by the principal of the college. Ranganath Aher explained the role of the reading day programme and that students should do a lot of extra reading along with the college curriculum. I expected

that. Reading enriches our personalities. Reading shapes our lives. Students should read consistently and inspire others to read along with them. Principal Dr. anticipates this. Aher expressed gratitude to Ranganath. On this occasion, the Vice Principal, Dr. Dilip Thube, Dr. Deepak Sontakke, Dr. Vijayakumar Raut, Prof. Virendra Dhanshetty, Dr. Bhimraj Kakade, Dr. Nandkumar Udar, Dr. Maya Lahare, Prof. Ashok More, Dr. Dattatraya Ghungarde, etc., 59 professors and students were present.

Outcome of Activity/ event:

1. Students get to know the background of the library.
2. Students learned the importance of reading and developed reading skills.
3. Human values were identified through reading.

Academic Year 2020-2021
Activity Report

Total of Activity	Vachan Prerana Din
Date/ Duration	15 October 2020

Number of Participants Enrolled	130

Brief Summary of activity/ event:

In the academic year 2020-21, October 15th, 2020 was celebrated as Reading Inspiration Day on behalf of the Marathi Department and Library Department. This day, former President of India Dr. A. P. J. Abdul Kalam's birthday is celebrated as Reading Inspiration Day.

In the background of the Corona infection, this programme was conducted online through the app Google Meet. The programme was introduced by the head of the Marathi department, Dr. Done by Hareesh Shelke. He said, is reading culture disappearing in today's era of information technology? Such a question is being raised. With this background, this programme will surely enrich the reading culture. It will also be a guide for reading. He stated his belief This program's main lecturer is Dr. Prabhakar Desai, Marathi Department Head at Savitribai Phule Pune University He said that books have an important contribution to make in building individuals, societies, and nations. How we read and what we read is more important than how much we read. Popular books are those that touch the reader's emotions. There is no harm in reading popular books in the initial stages to develop an interest in reading. But the emphasis should be on reading books that really engage the thoughts of the readers and stimulate their thoughts. If we are not able to read good books, the attitude of always relying on others is strengthened. Reading gives the ability to accurately interpret the various events happening in society. In the current situation, there is a need to focus on reading rather than listening to others' thoughts. Because only hearing does not stimulate thoughts. In today's era, all the media seems to be divisive to society. Society seems to be falling prey to this intellectual divide. The basic reason for this is a lack of reading skills. This is why society cannot accurately interpret the happenings around us. Mythical, historical, Ranjan Pradhan literature in Marathi is the best literature in Marathi. It is seen that the readers have made such a society. Even beyond this, there is classic and excellent literature in Marathi. This also needs to be taken into consideration. To enrich the reading movement, the government has established village-to-village public libraries. In these libraries, the shelves are more likely to be filled with books that entertain and educate readers than thought-provoking books. This also needs to be considered by the government and public library operators. In the college level library, it is seen that the students focus on reading the books related to the syllabus. Beyond this, students should read classic and thought-provoking books. Such detailed and rigorous opinions about the promise are presented in his lectures. The programme was chaired by the principal of the college. Ranganath Aher said that though the medium of reading has changed over time, the importance of reading has not decreased. Students are required to read comprehensively. Along with the syllabus, students should cultivate their thoughts by reading various fine literature, ideological literature, and many books on other subjects. Former President, Dr. A.P.J. Various aspects of Abdul Kalam's personality were highlighted. For the success of the program, the Vice Principal, Dr. Dilip Thube, Dr. Deepak Sontakke, Dr. Vijayakumar Raut, Prof.

Remedial Test

Final Report

Department of English conducted Remedial Test dated on 28th Feb 2019. According to remedial test results, the students who are weak will be given extra time in lectures for their improvement.

Remedial instruction can help struggling learners shore up their basic skills. This extra support can help them catch up to their peers. And sometimes, if a student's gaps in learning aren't related to a disability, it can eliminate the need for referral to special education.

Remedial programs are used to address gaps in basic skills. Most remedial programs target reading and math weaknesses. Remedial programs are different from special education services.

- Remedial instruction in English is an academic course designed for students and aspiring teachers aimed at improving reading comprehension. There are four basic parts of this type of program that involve many aspects of reading, speech and listening skills development.
- Students listen to short phrases and are asked to repeat them, in order to familiarize themselves with or brush up on the English language. They are then given information and asked to demonstrate their understanding of it, as opposed to being asked questions and providing answers. Eventually, dialog lengthens until full sentences form a complete conversation they can understand.
- By broadening vocabulary students are able to further develop writing and speaking skills that allow them to fully communicate outside the classroom with people in general who may have slightly different dialects. Over time, this enhances social skills, leads to confidence and is helpful when applying for jobs.
- Basic wants and needs can be expressed, and interactions can be fully understood. Real life scenarios are practiced in class that involves actions and reactions. Listening to the radio and television news gives an authentic perspective to communication that is likely to take place for most students and can be topics for discussion in class.

Brief Summary of activity/ event:

On the occasion of Marathi Language Fortnight, New Arts, Commerce and Science College, Parner Marathi Department and Parner Taluka Journalist Association organised 'Yuva Sahitya Sammelan 2020' on January 6th and January 7th, 2020 at New Arts, Commerce and Science College, Parner.

Yuva Sahitya Sammela started on January 6 in Granthdindi. Granth Dindi left at 9 am. left the college premises and returned to the college via Parner Bus Station. -Tehsil-Parner Peth-Bahiroba Mandir-Parner.

The Worship of Granthdindi, Former President of Parner Panchayat Samiti Rahul Zawre Patil, President of Parner Taluka Journalist Association Devidas Abuj, Senior Journalist Sanjay Waghmare, College Principal Dr. Ranganath Aher, it was done by the Vice Principal Dr. Dilip Thube and Parner Police Inspector Rajendra Gawli, and Naib Tehsildar Rogale worshipped Granthdindi. Similarly, the cymbal group of the students of New English School presented their art in front of Dindi. This cymbal group was guided by Prof. Holkar. On this occasion, the presentation of masculine arts from the Shiva period won the hearts of the audience. The students of the college conducted these interviews. Rajarajeshwari Kothavle did it. Rashtradhey Chhatra Sena The students of Rashtradheyya Sena in the college, the students of the planning department showed their spontaneous participation in Granth Dindi and contributed greatly to the success of Granth Dindi. The Granthdindi ceremony was concluded by Principal Dr. Ranganath Aher, who guided the students into the college premises. Senior journalist Sanjay Waghmare and President of Parner Journalist Association Devidas Abuj praised the participating students. Vice Principal Dr. Dilip Thube thanked him.

Mr. Rajkumar Tangde was the President of Yuva Sahitya Sammel on the second day of Yuva Sahitya Sammel on January 7, 2020. Mr. Rajkumar Tangde, while guiding the audience in his lecture, asserted that democracy will last only if the shackles around the neck of the social system are broken. As long as the concept of owner does not disappear from journalism, journalists do not have freedom. They cannot do journalism freely. While guiding the students, he said, "Those who asked me Rather than questions, the number of questions asked was greater. Maybe that's why I turned to the theatre field. I was born in the circle of Babasaheb's constitution. so I could write with a pen in my hand. Society must learn to read. If you can read society, you will get many opportunities. Society's mentality of going in the opposite direction of living cannot change the picture of society if it does not stop. This is not possible unless the journey from Tandya comes

back to Tandya and stops.

Many questions are not raised in the assembly, as many are raised from the literature. A literary man has no master, so he can freely express his opinion. can write. No need to kill men with swords, but to kill thoughts with the weapon of the pen. To be the eyes of society, you have to write about yourself, write about your life, write about your life. Writing is based on thinking and on your behavior. You can express yourself more effectively in your spoken language. We have to wake up society by writing in our mother tongue. But, for that, the company we live in, how our friends are, is very important, and being independent is a symbol of a healthy society. We should become that, The more difficult the path, the higher it takes you. At the same time, while talking about the farmers, he said that the one who makes the tree grow should live. If he lives, the country will also live. A devotee of black soil is a true patriot. Whose-whose drops of sweat fall on the soil- they are patriots Mr. Narayan Sumant was the chief guest at the second session of Yuva Sahitya Sammel. A lecture is a short presentation on a specific topic, whereas a narrative is a longer presentation. It covers many subjects. Today, whoever is getting an education, it is only to get a job. But, it only creates slaves. No owner The concept of slavery creates slaves, and the concept of ownership creates masters. If you want to enrich your life, you have to look inside yourself.

We are inheritors of a matriarchal culture. The Black Mother is our mother goddess. A job has never been a priority in our country, and never will be. We are agrarian. In the last three decades, farmers have committed suicide, and now we are going to see the murder plans of educated people in the next few years. A country means living people like you and me and a sense of belonging. This feeling must be kept alive. Only then will the country survive. That which manifests itself is called youth. While defining education, Sumanta said that education is about finding possibilities in students and developing them. The more those possibilities are explored, the more progress is certain. Students should not be educated only for jobs but should be educated to search for the existence of self. Also, you should learn for yourself. This assertion was made by Narayan Sumant. Rahul Jhavre, Trustee of District Maratha Vidya Prasarak Samaj Sanstha, gave a presidential speech on this occasion. The President of the Journalist Union, Mr. Devidas Abuj, proposed the vote of thanks.

In this way, the 'Yuva Sahitya Samelan' was held in two days.

Outcome of Activity/ event:

1. Social commitment was created among the students.
2. Students were motivated to read books.
3. Through Granth Dindi, the students started to love each other.
4. The students felt social consciousness from seed speech.
5. Students' interest in poetry increased through the poetry meeting.

राष्ट्रीय सेवा योजना शिबिरामुळे नैतिक मुल्यांचा विकास होतो

राहुल झावरे यांचे प्रतिपादन । पिंपरी जलसेन येथील हिवाळी शिबिराचा समारोप

निधोज । नगर सद्योदी

राष्ट्रीय सेवा योजनेमुळे विद्यार्थ्यांमध्ये नैतिक मुल्यांचा विकास होतो, असे प्रतिपादन पारनेर पंचायत समितीचे माजी सभापती व शिक्षण भरठा विद्या प्रसारक समान संस्थेचे विरचरत राहुल झावरे यांनी केले.

पारनेर येथील न्यू आर्ट्स कॉमर्स अँड सायन्स कॉलेजच्या राष्ट्रीय सेवा योजनेच्या विशेष हिवाळी समारोपकार शिबिराचा

समारोप प्रसंगी कार्यक्रमाचे अध्यक्ष म्हणून राहुल झावरे बोलत होते.

ते म्हणाले की, राष्ट्रीय सेवा योजनेमुळे विद्यार्थ्यांच्या नैतिक मुल्यांचा विकास होतो. कारण युवकांचे राष्ट्रनिर्मितीत महत्वाचे योगदान आहे. अभाष्या साधनमातुल विद्यार्थ्यांनी केलेले काम आनंद देणारे असून ते सामाजिकपणे केले पाहिजे. जी. एस. महानगर बँकेचे संस्थापक मन्. सॉलिसिटर मुलाबराब शेळके साहेब यांच्या प्रेरणेने व जी. एस. महानगर

बँकेचे अध्यक्ष अँड. उदय सोजके आणि प्राभर्यांच्या सहकार्यातून केलेले उपक्रम व महाविद्यालयपारतील विद्यार्थ्यांनी केलेले श्रम हे गावासाठी महत्वाचे ठरतील. तसेच स्वतःमध्ये बदल घडून आणण्यासाठी नव्हे तर तुमच्यासाठी हे राष्ट्रीय सेवा योजनेचे ब्रीद वाच्य पुढे करणारे श्रम वा घरर महाविद्यालयपारतील विद्यार्थ्यांनी केलेले आहे. वाचकून समाधान व्यक्त केले व अशा शिबिरातून समाज प्रबोधन

Aims and Objectives:

1. **Remedial instruction in English** is an academic course designed for students and aspiring teachers aimed at improving reading comprehension. There are four basic parts of this type of program that involve many aspects of reading, speech and listening skills development.
2. Remedial instruction in English is an academic course designed for students and aspiring teachers aimed at improving reading comprehension. There are four basic parts of this type of program that involve many aspects of reading, speech and listening skills development.
3. Students listen to short phrases and are asked to repeat them, in order to familiarize themselves with or brush up on the English language. They are then given information and asked to demonstrate their understanding of it, as opposed to being asked questions and providing answers. Eventually dialog lengthens until full sentences form a complete conversation they can understand.
4. By broadening vocabulary students are able to further develop writing and speaking skills that allow them to fully communicate outside the classroom with people in general who may have slightly different dialects. Over time, this enhances social skills, leads to confidence and is helpful when applying for jobs.
5. Basic wants and needs can be expressed, and interactions can be fully understood. Real life scenarios are practiced in class that involves actions and reactions. Listening to the radio and television news gives an authentic perspective to communication that is likely to take place for most students and can be topics for discussion in class.

Final Report

Department of English conducted Remedial Test dated on 25th July 2018. According remedial test result, the students who are weak will be given extra time in lecture for their improvement.

Remedial instruction can help struggling learners shore up their basic skills. This extra support can help them catch up to their peers. And sometimes, if a student's gaps in learning aren't related to a disability, it can eliminate the need for referral to special education.

Remedial programs are used to address gaps in basic skills. Most remedial programs target reading and math weaknesses. Remedial programs are different from special education services.

Remedial Test

Final Report

Department of English conducted Remedial Test dated on 02th March 2018. According to remedial test results, the students who are weak will be given extra time in lectures for their improvement.

Remedial instruction can help struggling learners shore up their basic skills. This extra support can help them catch up to their peers. And sometimes, if a student's gaps in learning aren't related to a disability, it can eliminate the need for referral to special education.

Remedial programs are used to address gaps in basic skills. Most remedial programs target reading and math weaknesses. Remedial programs are different from special education services.

The Yuva Sahitya Sammelan was organised on January 5th and 6th, 2018 at New Arts, Commerce and Science College, Parner Mahavidyalaya.

The meeting started on the first day of the meeting, on January 5th, with Granthdindi. On the second day, on January 6, the first session of the conference was inaugurated by the president of the organization, Hon. Nandkumar Zawre Patil. After that, the president of the conference, Hon. Sanjay Awte, Editor of Sam TV, and reception president, Mr. Rahul Jhavre Patil, President of Parner Taluka Journalist Association, Hon. Sanjay Waghmare, Principal of the College, Hon. Dr. "Intrepid Journalism Award Ceremony" was held in the presence of Ranganath Aher.

In the second session of the conference, the president of the conference, Hon. Sanjay Awte, while speaking, said that instead of strengthening nationalism, work is being done to strengthen casteism. They are trying to break you apart. Therefore, the country has to be made by making people beyond caste, religion, language and beyond.

In the afternoon enlightenment session, Hon. Ganesh Shinde gave guidance on "Social Education Dash and Disha". He said that caste, religion, and creed do not stand in the way of progress. Success can be achieved even in adverse conditions. An exemplary example is the late President Dr. A.P.J. Abdul Kalam. There were many barristers like Babasaheb Ambedkar. but they could not use the knowledge for society. Knowledge should be socially oriented.

A poetry meeting was held in the subsequent session. The poet's meeting was chaired by Hon. It was Amol Bagul. Many youths recited their poems in this poet's meeting.

The meeting was attended by the teachers, students, and non-teaching staff of the college and all the members of the journalist association.

Outcome of Activity/ event:

1. Through Granth Dindi, the students started to love each other.
2. The students felt social consciousness from seed speech.
3. Students' interest in poetry increased through the poetry meeting.

While guiding the meeting, the Honorable Sanjay Awte

While guiding the meeting, the Honorable Ganesh Shinde

मुंबई, ता. ७ : "मुलांना केवळ पुस्तकी ज्ञान देऊन चालणार नसून, त्यांना सामाजिक प्रश्नांची जाण असणे गरजेचे आहे. त्यासाठी समाजात राहून त्यांचे प्रश्न सोडविणे गरजेचे आहे. शाळा व कॉलेजमधून समाजसेवा, श्रमसंस्कार शिबिरे राबविली जातात. त्याचा मुलांच्या जडणघडणीत मोठा फायदा होतो," असे प्रतिपादन पारनेर पंचायत समितीचे सभापती राहुल झावरे यांनी केले.

पुस्तकी ज्ञानाबरोबर मुलांना सामाजिक ज्ञानही द्यावे : झावरे

सकाळ वृत्तसेवा

सुपे, ता. ३ : "मुलांना केवळ पुस्तकी ज्ञान देऊन चालणार नसून, त्यांना सामाजिक प्रश्नांची जाण असणे गरजेचे आहे. त्यासाठी समाजात राहून त्यांचे प्रश्न सोडविणे गरजेचे आहे. शाळा व कॉलेजमधून समाजसेवा, श्रमसंस्कार शिबिरे राबविली जातात. त्याचा मुलांच्या जडणघडणीत मोठा फायदा होतो," असे प्रतिपादन पारनेर पंचायत समितीचे सभापती राहुल झावरे यांनी केले.

पारनेर येथील न्यू आर्ट्स, कॉमर्स अँड सायन्स महाविद्यालयाच्या, रायतळे येथील सात दिवसांच्या श्रमसंस्कार शिबिराच्या उद्घाटनप्रसंगी ते बोलत होते. पोलिस निरीक्षक हनुमंत

रायतळे : न्यू आर्ट्स, कॉमर्स, अँड सायन्स महाविद्यालयाच्या श्रमसंस्कार शिबिरात मुले श्रमदानातून गॅबियन बंधारा बांधताना.

गाडे, प्राचार्य डॉ. रंगनाथ आहरे, उपप्राचार्य तुकाराम धोपटे, सरपंच भाऊसाहेब पवार, रामचंद्र मांडगे, सरपंच भाऊसाहेब येणारे, उपसरपंच कविता भालेकर, महादेव काळे महाराज, अरुण ठोकळ, दत्ता पवार,

गटशिक्षणाधिकारी सभाजी झावरे, दत्ता रोकडे, प्रा. हरीश शेळके, प्रा. संजय आहरे, प्रा. प्रियांका मिसाळ उपस्थित होते.

झावरे म्हणाले, "पूर्वी एकत्र कुटुंबपद्धती होती. त्यामुळे मुलांवर

श्रमसंस्कार होत असत. आज विपन्न कुटुंबात श्रमसंस्कार होत नाहीत. मुलांना सामाजिक ज्ञानाबरोबरच श्रमाचीही जाणीव व्हावी. हा उद्देश या शिबिरामागे आहे."

पोलिस निरीक्षक गाडे म्हणाले "अशा शिबिरातून मुलांचा व्यक्तिमत्त्व विकास होण्यास मदत होते. मुलांचे अमशकती वाढावी, आपण समाजाचे काही तरा देणे लागतो. त्यासाठी आपण समाजासाठी काही तरा केले पाहिजे. याची जाणीव मुलांमध्ये व्हावी. यासाठी शिबिरे आयोजित केली जातात. श्रमदानातून मिळणारा आनंद खूपच वेगळा आहे. त्याचे मूल करता येणार नाही. यातून मुलांची वैचारिक प्रगल्भताही वाढते"

साईबर क्राईमचे वाढते प्रमाण चिंताजनक, पारनेर महाविद्यालयात सायबर क्राईम कार्यशाळा

लोकमत न्यूज नेटवर्क

पारनेर : फेसबुकमध्ये फेकअकाउंट तयार करून मुली किंवा अन्य लोकांची फसवणूक करण्याचे प्रकार वाढत असून सोशल मिडियाचा वापर काळजीने करण्याचे आवाहन सायबर विभागाचे पोलीस निरीक्षक सुनील पवार यांनी केले.

पारनेर महाविद्यालयात भौतिकशास्त्र विभागाच्या वतीने सायबर क्राईम कार्यशाळा आयोजित करण्यात आली होती. अध्यक्षस्थानी पारनेर पंचायत समितीचे सभापती राहुल झावरे होते.

सभापती झावरे म्हणाले, तरुण सध्या फेसबुक, हॉटसअप व इतर सोशल मिडियाचा वापर करीत आहेत, परंतु त्याचा दुरुपयोग करण्याचे कामही काही उद्योगी मंडळी करीत असून त्याचा सर्वाधिक धोका मुलींना

पारनेर महाविद्यालयात आयोजित सायबर क्राईम कार्यशाळेत बोलताना पोलीस निरीक्षक हनुमंत गाडे. व्यासपीठावर राहुल झावरे, रंगनाथ आहरे, सुनील पवार, क्रांती पाटील.

आहे. मुलींनी याचा काळजीपूर्वक वापर करावा.

सायबर पोलीस निरीक्षक सुनील पवार म्हणाले, सायबर क्राईमचे गुन्हे वाढत असल्याने पोलीस विभागाला स्वतंत्रपणे सायबर क्राईम विभाग सुरू करावा लागत असून त्यामुळे आता सायबर गुन्ह्यांविषयी जनजागृती

करण्याचे काम आम्ही युवकांशी संवाद साधून महाविद्यालयांमधून करीत आहोत. कार्यक्रमास पोलीस निरीक्षक हनुमंत गाडे, पोलीस उपनिरीक्षक क्रांती पाटील, प्राचार्य रंगनाथ आहरे, प्रा.अविनाश मंचरकर, प्रा.संभाजी काळे, प्रा.सुप्रिया काळे, शिक्षक, विद्यार्थी उपस्थित होते.

The Lasure A.U. introduces the workshop and gives formal introduction of the workshop. In the inaugural session, Dr. Rangnath Aher introduced the theme of workshop, outline of the programme and what for this workshop is being organised. In inaugural speech, he said cyber-crimes is often difficult to trace, can be carried out remotely and the costs are low.
