Brief Summary of activity/ event:

On Saturday, October 3, 2020, the IQAC, Department of Chemistry, and Alumni Association of New Arts, Commerce, and Science College, Parner will host a one-day webinar titled "Research- Another Call for Young Minds." The webinar is conducted via the Zoom technology, and Dr. M. G. Chaskar, Dean, Board of Science and Technology, Savitribai Phule Pune University, Pune, gives it a ceremonial virtual start. Prof. Dr. D. R. Thube gave an introduction to the webinar's goals. According to Sir, research in any topic is an integral element of studying any subject. The results of a study are dispersed across the area for the benefit of the entire population. Welcome to the webinar, resource people and main guest, Prin. Dr. R. K. Aher. During the pandemic, Dr. Aher proposed the student enrichment activity and the community activity. Also discussed was the function of a department in fostering knowledge. Dr. M. G. Chaskar emphasised the importance of basic science research in his overall message, as well as the need to properly guide aspiring scientists. Opportunities in Chemistry and Pharmacological Aspects of Chemical Research, presented by Dr. Hanuman Kalmode, Post-Doctoral Fellow, Department of Molecular Physiology and Biological Physics, University of Virginia, USA, is followed by a lecture on "Research Methodology for Beginners," presented by Dr. Vikas Padalkar, Sr. General Manager, NOCIL Ltd., Mumbai. Dr. Kalmode and colleagues discuss COVID 19 and pharmacological dimensions. He talked about drug development, stages of clinical trials, drug uses, and laboratory workup. He talked about the research scholarships available in India and overseas, including SERB, CSIR, DST-CSIR, and Vigyan Prasarak for the promotion of Indian science. Research is a passion, not a job, according to Dr. Padalkar, who focuses on the early stages of an investigation. Before beginning a study project, you should be aware and thoughtful. The initial stage in conducting research is to decide on a research facility, organisation, and mentor. You should also choose the subject or issue you will be working on. The literature review is carried out in a variety of ways when you search for an issue, including through research papers, journals, SCOPUS, reference books, etc. with findings like search, refine, analysis, and arrangement. The primary goal following a problem search is to establish the problem's objective as well as its glassware, chemical, and analytical equipment needs. He said, "You have."

Outcome of Activity/ event:

1. The discussion with the resource person and participants resolves the ambiguity of researchers.
2. Students got idea about primary stages of research.
3. Students aware of fellowships in India and abroad for research.
