**Department wise Action Taken Report on Feedback
Academic Year-2018-19**

Feedback is one of the most important components to tracing out the general process in the curriculum and planning for future improvements. We have decided to take feedback of final year students of graduate and post-graduate students, their parents, alumni on curriculum design and overall development of the college

The feedback mechanism is an essential and effective tool to identify whether the college is imparting quality education. Hence our college has made a policy to avail the feedback from all the stakeholders. The college authorities have established a Feedback committee.

The feedback committee do the planning about the formats, collection, and evaluation of feedback from all the stakeholders such as students, teachers, parents, alumni etc. Regular meetings of the committee have been organized to execute the planned activities, The feedback is collected form of standard formats from all the stakeholders on various aspects such as curriculum development and deployment, infrastructural facility of the college etc.

The college has received feedback from all the stakeholders. We have collected 603 feedbacks from different stakeholders. This feedback is analyzed by feedback committees.
